President's Message

Dear Friends and Partners,

It gives me immense pleasure to reflect on another impactful month at GTTCI, where our commitment to fostering inclusive global growth continues to manifest through meaningful partnerships, timely initiatives, and our unwavering dedication to building bridges between nations.

In recent weeks, GTTCI has had the honour of mobilizing **relief material for the communities of Myanmar**, demonstrating our belief in responsive diplomacy and regional solidarity. Our heartfelt gratitude goes out to all the stakeholders and partners who came forward for this humanitarian cause.

On the eve of **International Tea Day**, GTTCI, in association with Dentem, curated a unique cultural dialogue that brought together representatives from various countries, using tea as a symbolic and powerful connector of civilizations. This celebration of soft diplomacy echoed our philosophy that global harmony can often begin with the simplest of gestures.

In the domestic arena, we have further cemented our trade facilitation efforts by strengthening ties with **CWBTA** and **FAIVM**, reinforcing our role in supporting India's evolving internal trade architecture.

Our global alliances continue to flourish—most notably through our partnership with **IREF** to support the international outreach of **BIRC 2025**, which aims to position India as a vital destination for innovation, resilience, and investment.

I was honoured to address a distinguished gathering on the occasion of the **Eurasian Economic Union (EAEU) Day**, at the exhibition hosted by the **Embassy of the Russian Federation**. In my speech, I underscored the relevance of the India-EAEU corridor as a new axis of growth and multilateral cooperation in the current geopolitical landscape.

The month also saw GTTCI commemorating **UN Peacekeepers Day 2025**, saluting the brave women and men across the world who uphold peace in the most challenging environments. Their resilience inspires our mission to facilitate sustainable development through peaceful global cooperation.

It gives me particular pride to announce the signing of a strategic **MoU between GTTCI and Sir Ganga Ram Hospital**, aimed at advancing medical knowledge exchange, training, and global healthcare partnerships. This initiative is aligned with our broader agenda of fostering global collaborations in health, wellness, and medical diplomacy.

At the **Tashkent International Investment Forum (TIIF 2025)**, our delegation had fruitful engagements with key institutions, leading to promising **MoUs with 7Saber and Kokand University**. These alliances underscore our strategic focus on textile, sportswear, medial education, pharmaceuticals, and regional integration across Central Asia.

Looking ahead, we are excited to present the MSME Connect – Global Growth Forum 2025, scheduled for 27th June in New Delhi. Building on the overwhelming success of the 2024 edition, this year's forum aims to elevate India's MSME sector into a new orbit of global relevance. With a robust mix of thought leadership, B2B engagements, and government-industry interface, we seek to empower our enterprises to harness emerging global value chains in the new world order.

As the global economic narrative continues to shift, GTTCI remains committed to creating resilient ecosystems that foster trade, innovation, healthcare, education, and inclusive development. Together, we will shape the pathways of opportunity for India and its partners around the globe.

With warm regards and gratitude for your continued support,

Dr. Gaurav Gupta

Founder President - Global Trade & Technology Council (India)

Founder Director – GTTCI Trade Chamber

From the Desk of Chairperson

Dear Esteemed Readers,

It is with great optimism and purpose that I share with you the remarkable progress GTTCI has made over the past month as we continue to expand our global footprint and forge impactful partnerships in an increasingly interconnected world.

Our focus this month has been deepening engagement across the **Commonwealth of Independent States (CIS)**, a region rich in history, resources, and untapped economic potential. Among these, Uzbekistan has emerged as a pivotal hub for Central Asia—an ideal gateway for India and our global partners to connect with the heart of Eurasia.

In this context, GTTCI has taken significant strides to bolster bilateral and regional collaboration. During our participation in the **Tashkent International Investment Forum (TIIF 2025)**, we formalized strategic **MoUs with 7Saber and Kokand University**, building on our commitment to support knowledge exchange, skill development, and cross-border investments in education, tourism, technology, and healthcare. These steps mark the beginning of a long-term effort to establish Uzbekistan as a collaborative bridge between India and the broader CIS region.

Further expanding this vision, GTTCI participated actively in the **St. Petersburg International Economic Forum (SPIEF 2025)**, engaging with key Russian institutions and businesses. Russia, with its established global influence and longstanding ties with India, remains a critical pillar in shaping a balanced new world economic order.

Our ongoing discussions with Russian partners revealed enormous untapped synergy in sectors such as energy, pharmaceuticals, agriculture, logistics, education, and fintech. GTTCI is currently facilitating exploratory projects that aim to build trilateral corridors connecting **India, Russia, and Central Asia**, and extending into **Africa**, where the demand for innovation, health infrastructure, and trade linkages is growing rapidly.

This evolving trilateral approach—India, Russia, and Central Asia working together with Africa—represents a vision of inclusive and diversified global growth, rooted in mutual respect and shared prosperity. GTTCI stands committed to being a facilitator of this new strategic architecture, where emerging economies play a defining role in shaping global direction.

As we look ahead to our flagship **MSME Connect – Global Growth Forum 2025** on **27th June**, we reaffirm our mission to uplift India's small and medium enterprises by connecting them with global opportunities. In doing so, we are not only creating economic impact, but also advancing the idea of India as a collaborative force in this dynamic global landscape.

With gratitude for your continued trust and engagement,

Dr. Rashmi Saluja

Forging New Frontiers: India–Uruguay Trade Ties for a Resilient Future

Growing Bilateral Engagement

India and Uruguay are steadily redefining their bilateral ties, driven by a shared commitment to democracy, sustainability, and multilateral cooperation. With India's expanding global economic influence and Uruguay's strategic role within the Mercosur bloc, both nations are exploring deeper trade and diplomatic avenues that promise long-term collaboration and mutual growth.

Trade and Investment Synergies

The economic relationship between India and Uruguay is on a steady upward trajectory. Indian exports to Uruguay include pharmaceuticals, textiles, automobiles, and machinery, while India imports wool, leather, soybeans, and meat products from Uruguay. Uruguay's open-market policies, favorable investment climate, and advanced agro-tech capabilities make it an attractive destination for Indian investors exploring Latin American markets.

New trade facilitation initiatives and ease-of-doing-business dialogues have improved connectivity and supply chain efficiency. Indian pharmaceutical firms are also exploring regulatory partnerships for faster entry into Uruguay's healthcare sector, contributing to affordable healthcare access in the region.

Aligning on Global Agendas

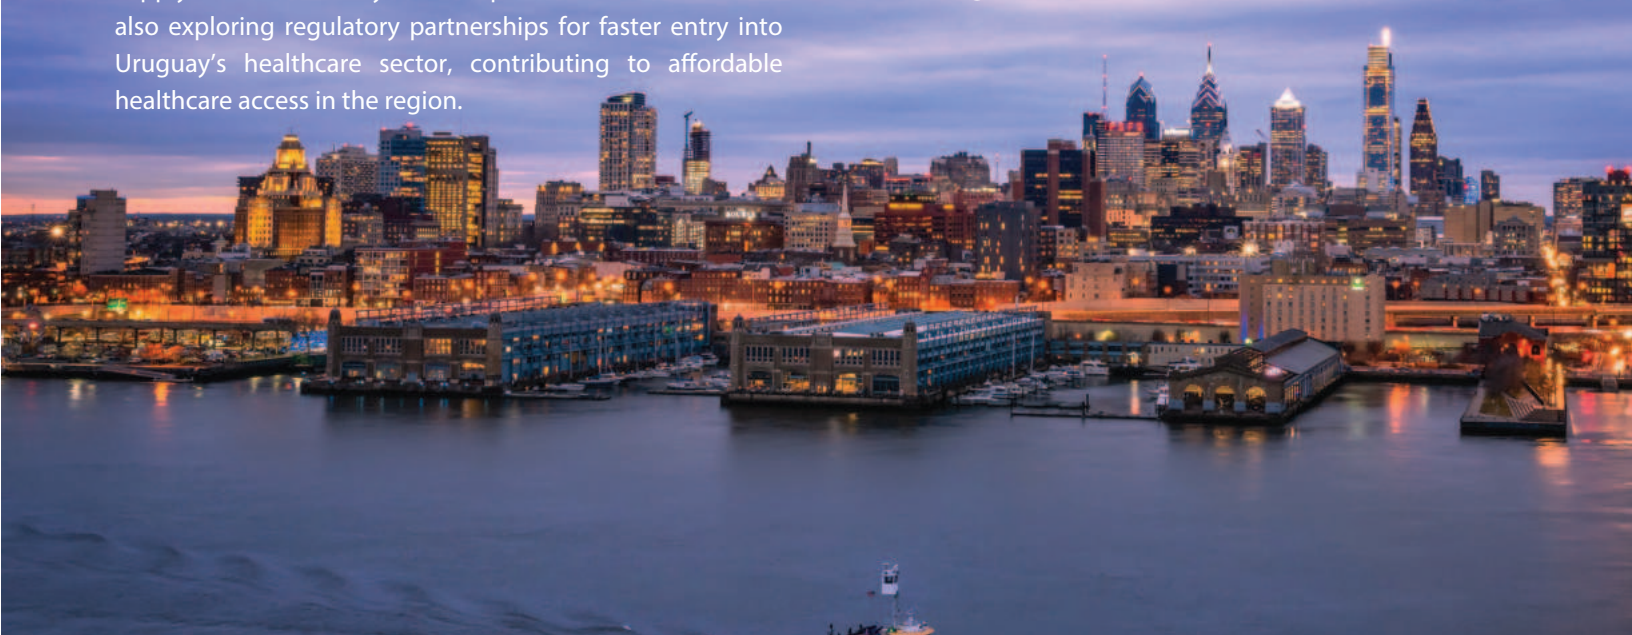

India and Uruguay have found common ground on several global issues, including climate justice, food security, and multilateral reform. Uruguay has backed India's stance for greater representation in international institutions like the UN Security Council. Both countries are members of international alliances such as the

International Solar Alliance (ISA) and support equitable digital development and sustainable growth models.

Uruguay's policy stability and India's expanding diplomatic influence have enabled both sides to pursue mutual goals in climate resilience, fintech innovation, and renewable energy.

Cultural and Educational Bridges

Beyond economics and diplomacy, people-to-people connections are gaining traction. Uruguay has shown interest in promoting Indian culture and yoga, while student exchange programs and academic collaborations are strengthening educational ties. Indian professionals are also finding opportunities in Uruguay's service sector, especially in IT and digital services.

India–Mongolia: Forging Frontiers of Economic and Strategic Harmony

Strategic Economic Ties with a Vision

India and Mongolia, united by ancient Buddhist linkages and modern democratic ideals, continue to expand their economic and developmental partnership. As Mongolia focuses on diversifying its economy—particularly in mining, agriculture, and energy—India's strong developmental support, including a major Line of Credit, plays a crucial role. The landmark oil refinery project in Dornogobi stands as a symbol of this cooperation, poised to enhance Mongolia's energy self-reliance and regional integration.

Growing Trade and Investment Flows

Bilateral trade is evolving steadily, with India exporting refined petroleum, pharmaceuticals, and machinery, while importing Mongolian coking coal and copper concentrate—critical resources for India's manufacturing and energy sectors. Efforts are underway to enhance trade facilitation, explore e-commerce opportunities, and introduce agricultural technology tailored for Mongolia's unique climate.

Shared Global Outlook and Regional Collaboration

India's "Act East" and "Connect Central Asia" policies intersect meaningfully with Mongolia's "Third Neighbor" strategy. Both countries consistently advocate for a rules-based international order and regional peace. Their collaboration extends into climate action, renewable energy, cybersecurity, and disaster resilience.

Cultural and Educational Diplomacy

The spiritual and educational ties between India and Mongolia remain robust, strengthened by exchanges of Buddhist scholars, restoration of monasteries, and the digitization of rare manuscripts. India's support in establishing an Ayurveda and Yoga center in Ulaanbaatar symbolizes soft diplomacy through wellness and tradition.

Looking Ahead

With shared goals and mutual respect, India and Mongolia are scripting a unique narrative of sustainable development, innovation, and cross-border friendship—setting a model for cooperation among emerging democracies in Asia.

India–Mauritius: Deepening Economic Partnership in a Transformative Era

A Trusted Partnership with Economic Depth

India and Mauritius share a time-tested relationship underpinned by strong cultural ties, historical connections, and robust economic cooperation. As Mauritius advances its focus on innovation and sustainability, the island nation continues to emerge as a key regional economic hub. India remains one of its foremost trade and development partners, reinforcing both nations' shared vision under the South-South cooperation framework.

Bilateral Trade and Financial Integration

Trade relations are significantly bolstered by the Comprehensive Economic Cooperation and Partnership Agreement (CECPA), which offers preferential market access for goods and services. India exports pharmaceuticals, food products, engineering goods, and textiles to Mauritius, while Mauritius provides India with sugar, marine products, and financial services.

India's role as a major investor in Mauritius' financial and infrastructure sectors is deepening. Mauritius, in turn, serves as a vital gateway for investments into Africa and Asia.

Budget 2025–2026 in Mauritius outlines measures to modernize its financial sector—introducing bullion banking, digital trade documentation, and wealth management frameworks—all offering further scope for India–Mauritius collaboration.

Shared Global Vision and Development Agenda

Both nations are aligned on global issues such as climate change, maritime security, and digital transformation. Mauritius' budget highlights a pivot to an innovation-driven economy with focus areas like renewable energy, blue economy, AI adoption, and infrastructure investment—all sectors where Indian technology, expertise, and financing can contribute significantly.

Toward a Future-Ready Strategic Alliance

Education, fintech, and health cooperation are on the rise, complemented by strong diaspora ties and cultural diplomacy. As both countries continue to prioritize inclusive development and regional integration, the India–Mauritius partnership is evolving into a dynamic, future-ready alliance shaping the Indian Ocean's economic narrative.

India–Fiji: Bridging the Pacific with Trade, Technology, and Trust

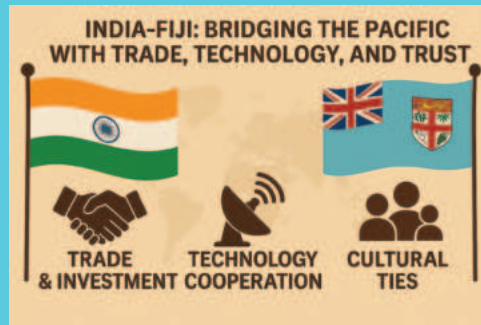

Strategic Friendship Across Oceans

India and Fiji, though geographically distant, are closely connected through a robust partnership built on historical ties, cultural affinity, and mutual development aspirations. With Fiji's GDP approaching USD 6 billion—driven by tourism, agriculture, and services—the country looks toward India as a key ally in sustainable growth and technological transformation.

India has played an instrumental role in supporting Fiji's digitalization, climate resilience, and disaster preparedness efforts. The collaboration is further strengthened by the vibrant Indian diaspora, which continues to act as a bridge of goodwill and cultural exchange.

Bilateral Trade and Investment Dynamics

India and Fiji have steadily enhanced their trade relationship, with Indian exports including pharmaceuticals, textiles, machinery, and automobiles. Fiji, in turn, exports agricultural products, mineral water, and niche organic goods to India. The recent emphasis on capacity-building in agro-processing, renewable energy, and

MSME development has opened new opportunities for private sector collaboration.

Bilateral mechanisms such as the India–Fiji Joint Trade Committee provide structured dialogue to boost trade volumes and diversify the product basket.

Shared Vision on Global and Regional Issues

India and Fiji align on global platforms concerning climate action, sustainable development, and South-South cooperation. As part of the Forum for India–Pacific Islands Cooperation (FIPIC), both nations advocate for inclusive development, ocean governance, and equitable access to green technologies.

People-Centric and Future-Ready Partnership

From scholarships and healthcare aid to technology training and satellite cooperation, India's engagement with Fiji continues to expand across diverse sectors. As both nations look ahead, the partnership reflects a unique blend of traditional goodwill and modern innovation—crafting a shared future of resilience, prosperity, and inclusive progress in the Indo-Pacific region.

India–Suriname: Strengthening South-South Cooperation through Trade and Culture

Deep-Rooted Ties with a Forward-Thinking Vision

India and Suriname enjoy a long-standing relationship, rooted in shared heritage and people-to-people connections. As Suriname focuses on revitalizing its economy through agriculture, mining, and energy development, India continues to play a supportive role through strategic cooperation and developmental assistance. The Indian diaspora, forming a significant portion of Suriname's population, further strengthens this unique cultural and diplomatic bond, fostering goodwill and deeper bilateral engagement across various sectors.

Trade Engagements and Development Assistance

India has emerged as a vital partner in Suriname's economic landscape, particularly in sectors such as agriculture, pharmaceuticals, renewable energy, and digital infrastructure. Recent cooperation included the supply of agro-machinery and technological aid aimed at enhancing Suriname's agricultural productivity and food security.

India exports generic medicines, engineering goods, textiles, and chemicals to Suriname, while Suriname's exports

to India include timber, aluminum, and other raw materials. Discussions are underway to explore joint ventures in herbal medicine, mining technology, and capacity-building in the SME sector.

Aligning on Global Agendas and Sustainability

India and Suriname share common positions on climate change, sustainable development, and equitable global governance. Both countries are active participants in the Global South dialogue, promoting clean energy, climate resilience, and inclusive innovation. India's solar energy initiatives and its partnership with Suriname under the International Solar Alliance (ISA) mark a significant step in this direction.

A Growing Partnership with Cultural Harmony

From cultural exchanges and scholarships to cooperation in health and IT, the India–Suriname partnership reflects the strength of soft power and shared values. With trust as its cornerstone, this relationship continues to evolve as a model of sustainable and people-driven diplomacy in the Global South.

India–Ethiopia: Harnessing History, Trade, and Technology for Mutual Growth

A Partnership Rooted in History and Development

India and Ethiopia share a relationship that dates back centuries, nurtured by trade, cultural exchanges, and shared values of peace and cooperation. As Ethiopia's GDP surpasses USD 120 billion, the nation is emerging as one of Africa's fastest-growing economies, focusing on manufacturing, agriculture, energy, and logistics. India, with its growing global role, continues to support Ethiopia's development goals through investments, technical training, and innovation-led cooperation.

electrification projects across Ethiopia, reinforcing long-term engagement.

Shared Global Outlook and Strategic Cooperation

On multilateral platforms, India and Ethiopia collaborate closely on issues such as climate justice, equitable trade, digital transformation, and reform of global institutions. Ethiopia's participation in the International Solar

Alliance and India's growing development cooperation in Africa reflect a shared agenda for green growth and sustainable development.

Expanding Bilateral Trade and Investment

India is among Ethiopia's top trading partners, with bilateral trade crossing USD 1 billion in recent years. India exports pharmaceuticals, iron and steel products, vehicles, machinery, and textiles, while importing agricultural products, pulses, leather, and coffee from Ethiopia.

Several Indian companies operate in Ethiopia's manufacturing and agribusiness sectors, creating local employment and enhancing value chains. The Indian government has also extended concessional lines of credit to support key infrastructure and

People-Centric Diplomacy and Capacity Building

Education, healthcare, and skill development form the heart of India's engagement with Ethiopia. Thousands of Ethiopian students pursue higher education in India through scholarships, while capacity-building programs in ICT, governance, and entrepreneurship strengthen institutional partnerships. The India–Ethiopia relationship stands as a symbol

of South–South cooperation, promoting inclusive development and a resilient, interconnected future.

India–Myanmar: Advancing Connectivity, Commerce, and Cooperation

A Geopolitical and Economic Gateway

India and Myanmar share more than a 1,600-kilometer border—they share a vision for regional stability, economic connectivity, and mutual development. As Myanmar works toward economic recovery with a GDP hovering around USD 70 billion, India has remained engaged as a trusted partner, supporting growth in infrastructure, health, digitalization, and regional transport corridors.

This strategic partnership also plays a vital role in India's "Act East" and "Neighbourhood First" policies, positioning Myanmar as a bridge to Southeast Asia and the wider ASEAN region.

Trade and Infrastructure at the Core

India is among Myanmar's key trading partners, with bilateral trade nearing USD 1.8 billion. India exports pharmaceuticals, engineering goods, electrical machinery, and textiles, while importing pulses, forest products, and marine items from Myanmar. Indian investments continue to flow into oil and gas, power generation, and agro-processing sectors in Myanmar.

Key infrastructure initiatives like the Kaladan Multi-Modal Transit Transport Project and the India–Myanmar–Thailand Trilateral Highway are poised to unlock significant trade and logistics potential for both nations, fostering cross-border economic activity and job creation.

Shared Commitment to Regional Peace and Growth

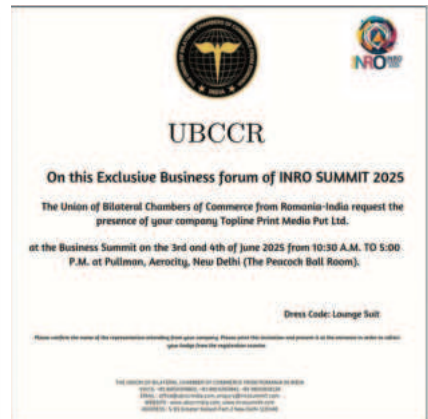

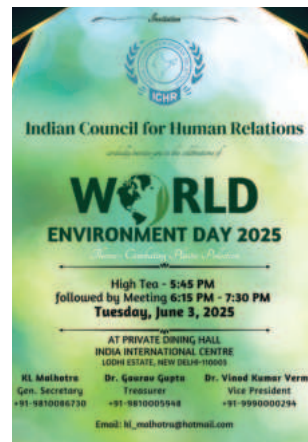

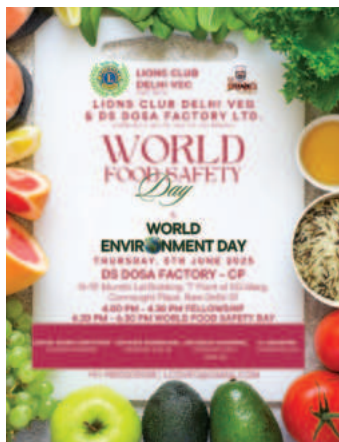

India and Myanmar collaborate on issues like border management, disaster resilience, counterterrorism, and transnational crime prevention. At multilateral forums such as BIMSTEC and ASEAN-led platforms, both advocate for sustainable development, equitable trade, and people-centric growth.

Human Development and Cultural Bonds

India supports educational scholarships, skill-building initiatives, and healthcare cooperation with Myanmar, nurturing long-term goodwill. Buddhist cultural exchanges and heritage conservation projects also deepen the civilizational ties that connect the two nations. Together, India and Myanmar are charting a path of inclusive growth rooted in connectivity, trust, and regional harmony.

GTTCI ENGAGEMENTS

GTTCI and Dentem Bring Together Nations Over Tea on the Eve of International Tea Day

Vasant Vihar Club, New Delhi

May 20, 2025, New Delhi

On the eve of International Tea Day, the Global Trade & Technology Council (India) joined hands with Dentem to host a special High Tea celebration at the Vasant Vihar Club, New Delhi. The event was a tribute to the rich culture,

heritage, and global trade significance of tea, bringing together esteemed members of the diplomatic and business communities.

Dr. Gaurav Gupta, Founder President of GTTCI, in his welcome remarks, highlighted tea as a timeless instrument of diplomacy and dialogue. “Tea transcends borders. It is not just a beverage but a medium for connection, conversation, and cultural exchange,” he noted.

Dr. Rashmi Saluja, Chairperson of GTTCI, eloquently shared insights into the origins of tea, emphasizing how it has historically united people across continents and continues to resonate with the new generation in both tradition and innovation.

The gracious hosts for the evening, Dr. Tanvir Singh and Dr. Gunita Singh, Directors of Dentem, extended their heartfelt thanks to all distinguished guests for their presence. They also delivered a brief presentation on Dentem’s work in the healthcare sector, further adding to the spirit of collaboration and community.

The event witnessed enthusiastic participation

The celebration not only honored the legacy of tea but also strengthened bonds of friendship and cooperation, in true diplomatic tradition. GTTCI remains committed to fostering such meaningful engagements that promote cultural exchange and international collaboration.

GTTCI Signs Strategic MoUs with CWBTA and FAIVM to Strengthen National Trade Collaborations

*Vasant Vihar Club, New Delhi
New Delhi, May 20, 2025*

The Global Trade & Technology Council (India) [GTTCI] signed landmark Memorandums of Understanding (MoUs) with two of India's most respected trade bodies — the Confederation of West Bengal Trade Associations (CWBTA) and the Federation of All India Vyapar Mandal (FAIVM) — during a special ceremony held at the International Tea Day celebration hosted by Dentem at Vasant Vihar Club, New Delhi.

Both CWBTA and FAIVM are legacy institutions with thriving business networks spanning hundreds of thousands of enterprises across India. The signing of these MoUs represents a significant milestone in GTTCI's ongoing efforts to build stronger trade alliances within the country and connect them to global platforms.

Mr. Sushil Poddar, President of CWBTA, and Dr. Gaurav Gupta, Founder President of GTTCI, jointly outlined their shared vision for empowering India's trade community through deeper collaboration, greater digital integration, and enhanced market access.

Dr. Rashmi Saluja, Chairperson of GTTCI, shared her vision for promoting the growth of Micro, Small, and

from several esteemed diplomatic missions. Among the prominent attendees were the Ambassador of the Republic of Fiji, Deputy Chiefs of Mission from the Embassies of Croatia and Ecuador, as well as diplomats from the Embassies of Bangladesh, Belarus, Chile, Djibouti, Nigeria, Norway, Sri Lanka, and Trinidad & Tobago. The gathering shared personal experiences and cultural perspectives on tea from their respective countries, enhancing the spirit of global unity.

Guests from Nigeria and Syria also graced the occasion, further enriching the dialogue on tea as a global phenomenon.

Medium Enterprises (MSMEs), highlighting their pivotal role in India's economic fabric. She announced that GTTCI will be hosting a dedicated MSME Conclave on MSME Day to support emerging businesses, with a special focus on entrepreneurs and industrial stakeholders from Madhya Pradesh. The conclave will serve as a platform for knowledge exchange, networking, and access to trade and technology opportunities.

Speaking on the occasion, Dr. Gupta emphasized, "The MoUs with CWBTA and FAIVM are more than agreements — they are a convergence of tradition and vision, local strength and global ambition. GTTCI is committed to bridging regional enterprise with international potential."

The event witnessed the gracious presence of several esteemed members of the diplomatic community, including H.E. Mr. Jagannath Sami, High Commissioner of the Republic of Fiji, along with the Deputy Chiefs of Mission from the Embassies of Croatia and Ecuador. Diplomats from the Embassies of Bangladesh, Belarus, Chile, Djibouti, Nigeria, Norway, Sri Lanka, and Trinidad & Tobago also joined the

celebration, sharing insights into their respective countries' tea cultures and traditions. Special guests from the Embassies of Nigeria and Syria further enriched the gathering, making the celebration a truly global affair that highlighted tea as a unifying element across diverse nations and traditions. The signing of these MoUs further elevated the evening, reinforcing GTTCI's dedication to inclusive growth, strategic collaboration, and economic diplomacy.

Indian Rice Exporters Federation (IREF) Partners with GTTCI for Global Outreach of Bharat International Rice Conference 2025, New Delhi

INDIAN RICE EXPORTER'S FEDERATION
भारतीय चावल निर्यातक संघ
"One Nation", "One Trade", "One Policy"

New Delhi, India – **Indian Rice Exporters Federation (IREF)** has announced a strategic partnership with the Global Trade & Technology Council India (GTTCI), appointing them as the Global Outreach Partner for the upcoming **Bharat International Rice Conference (BIRC) 2025**. The two-day global event, jointly organized by **Indian Rice Exporters Federation (IREF)** and the **Agricultural and Processed Food Products Export Development Authority (APEDA)**, is scheduled to be held in **September 2025**.

This partnership is aimed at amplifying global promotion efforts and attracting international buyers and stakeholders from key rice-importing countries. GTTCI will lead outreach and engagement initiatives to ensure diverse international participation, making BIRC 2025 a landmark event for the global rice industry.

The collaboration was formally announced during a ceremonial exchange, where **Dr. Prem Garg, National President, IREF**, presented a memento to **Dr. Gaurav Gupta, Founder President, GTTCI**, in recognition of the partnership.

"This collaboration is a milestone in IREF's mission to elevate India's presence in the global rice trade," said Dr. Prem Garg, National president, IREF. "With GTTCI's dynamic global network and proven track record, we are poised to host a world-class event that will bring the entire rice value chain together."

Dr. Gaurav Gupta expressed enthusiasm about the partnership, stating, "GTTCI is honored to serve as the Global Outreach Partner for BIRC 2025. We look forward to fostering international participation and driving impactful connections across borders."

GTTCI Commemorates International Day of UN Peacekeepers 2025

Radisson Blu Marina Hotel, Connaught Place, New Delhi
29th May 2025

The Global Trade & Technology Council (India) (GTTCI) solemnly commemorated the International Day of United Nations Peacekeepers 2025 on 29th May at Radisson Blu Marina, New Delhi, under the global theme for this year — "Future of Peacekeeping." The event witnessed the presence of ambassadors, diplomats, defense officials, and thought leaders who came together to honor the bravery and contributions of UN peacekeepers and discuss the evolving landscape of global peace efforts.

The event commenced with the national anthem and a warm welcome address delivered by Dr. Gaurav Gupta, Founder President of GTTCI, who together highlighted the growing need for collective security and the importance of partnerships in international peacekeeping missions. Dr. Rashmi Saluja, Chairperson of GTTCI along with Mr. Rakesh Asthana, Chief Advisor to GTTCI, Former Director General of the Border Security Force and Former Commissioner of Delhi

Police, extended a welcome to the guests followed by Mr. Asthana's address to then set the theme for the evening, emphasizing the increasingly complex nature of global conflicts and the urgent need to modernize peacekeeping operations to address these challenges. He also concluded the evening by delivering the vote of thanks, acknowledging the rich exchange of insights and the unity among nations in promoting peace.

A particularly engaging moment came with the address of H.E. Mr. Ganbold Dambajav, Ambassador of Mongolia, who shared Mongolia's long-standing contributions to UN peacekeeping missions across various regions, underscoring their commitment to global peace and security. Diplomats and officials from multiple countries offered their perspectives on the transformative role of UN peacekeepers in their respective regions. They spoke about how peacekeepers have helped stabilize administrative frameworks, restore political balance, and rebuild communities recovering from conflict. Among the key international voices were H.E. Mr. Sahidou Tanimoune, Chargé d'affaires of the Embassy of Niger; Colonel Venant Nsabimana, Defense Attaché from

the Embassy of Burundi; H.E. Mr. K.L. Ganju, Consul General of the Union of Comoros; Mrs. Elena, Head of the Russian House in New Delhi; and representatives from the Embassies

of Djibouti, Somalia, Ethiopia, Sudan, along with a visiting journalist from Syria who shared real-world accounts of conflict zones and peacekeeper interventions.

Adding depth to the discussion, Mr. Sanjay Gaur and

Mr. V.K. Thapaliyal, both Inspectors General from the Border Security Force (BSF), offered experiential insights from their fieldwork. They spoke about the challenges faced by ground personnel, the vital coordination between peacekeeping troops and local authorities, and how capacity-building and cultural sensitivity are central to mission success. Their remarks reflected not just operational concerns but a deep respect for the humanitarian essence of peacekeeping.

Dr. D.R. Kaarthikeyan, Former Director of the Central Bureau of Investigation (CBI), delivered a thought-provoking address highlighting how the self-interest of specific political or extremist groups continues to ignite conflict across

regions, thereby necessitating stronger and more adaptive peacekeeping mechanisms. He emphasized the importance of tackling the root causes of unrest and building more inclusive global institutions.

A unifying thread across all addresses was the shared understanding that peacekeeping must evolve rapidly in the face of emerging cybersecurity threats, hybrid warfare, and new forms of aggression against national sovereignty. Speakers called for the integration of advanced technologies,

stronger cyber defense strategies, and better-trained multinational forces to deal with the changing dynamics of modern conflict.

Russian Trade Representation and Embassy Host EAEU Day Celebrations in India

*Russian Trade Representation, New Delhi
2nd June 2025*

The Russian Trade Representation in India, in collaboration with the Embassy of the Russian Federation, hosted a thematic photo exhibition to commemorate the Day of the Eurasian Economic Union (EAEU). The event highlighted a decade of economic integration and cooperation among the EAEU member states—Russia, Armenia, Belarus, Kazakhstan, and Kyrgyzstan.

The keynote address was delivered by Roman Babushkin, Deputy Chief of Mission and Minister Counsellor at the Russian Embassy, who underscored the EAEU's emergence as a successful and self-reliant regional bloc since the signing of its founding treaty on May 29, 2014. He emphasized the Union's growing role in the evolving multipolar global order and highlighted the importance of concluding a Free Trade Agreement (FTA) between India and the EAEU to enhance

bilateral trade, ease market access, and eliminate trade barriers.

Adding valuable insights to the discussion, Dr. Gaurav Gupta, Founder President of the Global Trade & Technology Council (India), served as a spokesperson and delivered a speech during the event. Dr. Gupta highlighted the immense scope for India–EAEU cooperation in areas such as trade, energy, technology, and connectivity, while reinforcing GTTCI's role in promoting economic diplomacy and multilateral collaboration.

Other distinguished speakers included Andrey Sobolev, Russian Trade Representative in India; Elena Remizova, Head of Rossotrudnichestvo in India; and Dmitry Sotnikov, Deputy CEO of VTB Bank's Indian branch, who all echoed the collective commitment to strengthening India–EAEU relations.

The event was attended by representatives of the EAEU

member states' embassies, Indian ministries and agencies, trade organizations, export councils, and members of the media—demonstrating a shared vision for regional integration and global cooperation.

GTTCI Proudly Supports INRO Business Summit 2025: A New Chapter in India–Romania Trade Relations

Pullman Hotel Aerocity, New Delhi

3rd-4th June 2025

New Delhi, June 3–4 – The INRO Business Summit 2025, held at the Pullman Hotel Aerocity, New Delhi, marked a significant milestone in strengthening economic cooperation between India and Romania. Jointly organised by the Union of Bilateral Chambers of Commerce from Romania in India (UBCCR) in partnership with the Global Trade & Technology Council (India) [GTTCI], the summit showcased the growing momentum of bilateral and multilateral trade partnerships.

The summit brought together an esteemed assembly of CEOs, CTOs, investors, industrialists, and policymakers from various sectors. Through impactful B2B networking sessions, thematic panel discussions, and a comprehensive trade exhibition, the event facilitated meaningful connections and promoted innovative global business exchanges.

Diverse sectors including technology, healthcare, infrastructure, food and agriculture, automobiles, energy, electronics, retail, and bio-fertilizers were prominently represented, reflecting the broad spectrum of emerging opportunities for collaboration between Indian and Romanian enterprises, as well as international stakeholders.

Mr. Shiva Munjal, President of UBCCR, articulated the summit's overarching goal: "The INRO Business Summit 2025 is a bold initiative to bridge global business ecosystems and foster meaningful partnerships that drive innovation, sustainability, and mutual growth."

Mr. Kunal Katyal, Vice President of Indian Affairs at UBCCR, added: "This summit served as a strategic platform for Indian entrepreneurs to tap into scalable, cost-effective, and globally relevant business opportunities."

GTTCI's partnership brought added depth to the summit's agenda. The presence of prominent GTTCI leaders—Dr. Gaurav Gupta, Founder President; Mr. Kapil Khandelwal, Board Member; Ms. Laxmi Kaur Gill, Prime Member; and Mr. Deepanker Parashar—underscored the institution's continued commitment to fostering international trade and investment dialogue.

The summit concluded with forward-looking discussions on joint ventures, market access strategies, and sustainable trade alliances, setting a strong precedent for deepened India-Romania commercial cooperation in the years to come.

GTTCI and Sir Ganga Ram Hospital Unite to Elevate India's Medical Tourism

Sir Ganga Ram Hospital, New Delhi

7th June 2025

The GTTCI Trade Chamber is pleased to announce the signing of a landmark Memorandum of Understanding (MoU) with Sir Ganga Ram Hospital (SGRH), one of India's most esteemed medical institutions. This collaboration marks a strategic step towards enhancing the global outreach of India's healthcare sector by facilitating access to world-class medical services for international patients.

Under the terms of the MoU, GTTCI shall act as the official Healthcare Facilitator, promoting the cutting-edge diagnostic and treatment capabilities of SGRH to countries across the globe. The partnership will particularly focus on outreach in the CIS nations and African continent, where demand for high-quality yet cost-effective healthcare continues to rise.

Speaking on the occasion, Dr. Rashmi Saluja, Chairperson of GTTCI, reaffirmed the organisation's commitment to enabling international access to India's medical excellence. She remarked, "This partnership is a testament to India's growing global stature in healthcare. It presents an invaluable opportunity for patients across emerging regions to benefit from India's advanced healthcare infrastructure and medical expertise."

Dr. Ajay Swaroop, Chairman of the Board of Management, Sir Ganga Ram Hospital, welcomed the association and emphasised the hospital's longstanding commitment to

ethical, affordable, and high-quality healthcare. "Through this collaboration, we aim to extend our legacy of medical excellence and compassionate care to a wider international audience. The hospital will actively work with GTTCI to ensure seamless coordination for international patients, including end-to-end concierge services."

Dr. Gaurav Gupta, Founder President of GTTCI, termed the agreement a new chapter in global healthcare cooperation. "This initiative reflects our vision of bridging nations through health diplomacy. We warmly invite diplomatic missions and foreign trade bodies to leverage this partnership for the benefit of their citizens. Sir Ganga Ram Hospital, as one of India's premier research and postgraduate medical institutions, stands ready to serve with state-of-the-art care and global standards."

The MoU outlines a comprehensive mechanism for

international patient care, including care coordination, facilitation of travel and documentation, multilingual support, and promotional activities to showcase the hospital's capabilities at international forums and diplomatic missions, as coordinated by GTTCI.

This partnership aligns with GTTCI's broader mission of promoting India's strengths across sectors and fostering global goodwill through trade, technology, and now, health diplomacy.

TIIF 2025 – An Ocean of Opportunities: Uzbekistan Emerges as the Hub of Central Asia

GTTCI Unlocks Multisectoral Growth Through Strategic Engagements and MoUs in Uzbekistan

*Tashkent, Uzbekistan
9th-12th June 2025*

Uzbekistan's Grand Ascent in Global Investment: A New Chapter in Central Asian Diplomacy

The Tashkent International Investment Forum (TIIF) 2025, held from June 9 to 12, marked a defining moment for Uzbekistan's trajectory as a rising regional powerhouse. This fourth edition of the forum attracted over 8,000 participants, including nearly 3,000 international delegates from 97

countries, signaling the country's growing allure in the global investment landscape. The scale and scope of this forum were unprecedented—with \$30.5 billion in investment contracts and trade agreements finalized, representing a significant 14.6% increase from the previous year and nearly tripling the figure from just two years ago.

Tashkent has successfully positioned itself as the epicenter of new economic diplomacy in Central Asia. Under the reformist leadership of President Shavkat Mirziyoyev, the nation is advancing on multiple fronts—from energy transition and infrastructure development to digital transformation and regional connectivity. At the heart of

this international convergence was the active participation of the Global Trade & Technology Council (India), led by its Chairperson, Dr. Rashmi Saluja, accompanied by Chief Advisor, Mr. Rakesh Asthana and Director, Mr. Shubham Gupta. Their presence underscored India's growing interest in deepening bilateral and regional ties with Uzbekistan across sectors like healthcare, education, textiles, pharmaceuticals, and diagnostics.

The forum was not merely about signing agreements; it was a convergence of ideas, innovation, and intention. With 36 panel discussions, over 150 high-level speakers, and a large-scale industrial exhibition covering 12,000 square meters, TIIF 2025 offered a rare window into the ambitions of a country eager to lead in Central Asia. The GTTCI delegation, through strategic partnerships and sectoral dialogues, played a catalytic role in shaping outcomes that align with India's global vision for multisectoral economic cooperation.

GTTCI Visit to Kokand University, Andijan – A Vision for Educational Integration

As part of its broader educational diplomacy during the Tashkent International Investment Forum 2025, the GTTCI delegation undertook a significant visit to Kokand University in Andijan. This immersive engagement aimed to deepen the understanding of Uzbekistan's medical education framework and explore avenues for collaboration. The delegation, comprising Dr. Rashmi Saluja, Mr. Rakesh Asthana, and Mr. Shubham Gupta, toured three major academic facilities dedicated to medical and technical education, along with a state-of-the-art research laboratory, a pharmaceutical park, and several affiliated hospitals and polyclinics. These visits offered profound insights into Uzbekistan's evolving higher education and healthcare infrastructure, highlighting its readiness for global partnerships, a visionary project by its founder, Dr. Mukhtorkhon.

One of the most compelling highlights of the visit was the introduction to the proposed “Mini India City” project, shared by Mr. Iskandar of the university’s international

relations department. This visionary initiative seeks to create a culturally familiar environment for Indian students in Uzbekistan, offering facilities such as authentic Indian

cuisine, language and translation support, and dedicated spaces to celebrate Indian festivals and culture. Dr. Rashmi Saluja applauded the initiative, calling it a trailblazing model that could act as a hub-and-spoke framework for the entire CIS region, aligning perfectly with India's New Education Policy (NEP) and supporting the global expansion of Indian medical education standards.

TIIF 2025 Plenary Session: A Strategic Roadmap for Uzbekistan's Third Renaissance

TIIF 2025 unfolded as a convergence of global economic powerhouses, policymakers, and thought leaders in Tashkent, where the transformative economic vision of Uzbekistan took center stage. The plenary session, inaugurated by President Shavkat Mirziyoyev, served not only as a ceremonial opening but as a compelling narrative of Uzbekistan's reform journey, its current accomplishments, and its future ambitions. President Mirziyoyev delivered a

powerful keynote that covered a sweeping range of issues from global geopolitical challenges to climate change, from energy diversification to trade regionalization.

He spoke candidly about the need for collaborative efforts to combat growing threats to global security, food

stability, and the humanitarian crises unfolding in regions like Gaza and Ukraine. Expressing Uzbekistan's support for peaceful resolutions and diplomatic engagements, he noted that "Uzbekistan stands for peace, dignity, and mutual prosperity." The President's address also reflected Uzbekistan's historical legacy as a cradle of civilization and knowledge, linking it to a forthcoming "Third Renaissance" that integrates scientific innovation, green energy, and human-centric development.

The session was attended by high-ranking leaders such as Bulgarian President Rumen Radev, Slovakian Prime Minister Robert Fico, and Kazakh Prime Minister Olzhas Bektenov, alongside the Presidents of EBRD and New Development Bank. Each leader highlighted Uzbekistan's pivotal role in the Eurasian corridor, emphasizing the potential for transcontinental trade and digital connectivity. Bulgarian President Radev's speech particularly resonated when he called the Middle Corridor a "route of friendship, prosperity, and sustainable cooperation," pledging deeper bilateral ties with Uzbekistan.

Slovakia's Robert Fico described Uzbekistan as a "strategic junction in the Eurasian trade belt," lauding the country's infrastructure readiness and investment-friendly policies. The forum also spotlighted Uzbekistan's economic milestones: a doubling of GDP in the last eight years, \$35 billion in FDI last year, and an ambitious target

of \$200 billion GDP by 2030. The country's green energy initiatives were extensively detailed—highlighting \$6 billion in FDI into renewables, expansion in electricity production, and privatization plans for regional power grids.

Among the most noteworthy revelations was the development of the China-Kyrgyzstan-Uzbekistan railway project, a game-changer in Central Asian logistics and connectivity. The President also announced the launch of a Financial Stability Council and a National Reinsurance Company to enhance Uzbekistan's financial ecosystem. Digital economy, AI-enabled exports, and IT sector growth—targeting \$1 billion in tech exports—rounded off an incredibly progressive and inclusive vision for Uzbekistan's economic future.

GTTCI's participation in these high-level sessions underscored its commitment to aligning Indian business interests with Uzbekistan's development model, building new bridges for bilateral and regional collaboration.

Strengthening Diplomatic Ties – Official Dinner Hosted by the President of Uzbekistan

As part of the high-level engagements during the Tashkent International Investment Forum 2025, Dr. Rashmi Saluja, Chairperson of GTTCI, was graciously invited to an official dinner hosted by the Hon'ble President of Uzbekistan, His Excellency Shavkat Mirziyoyev. This prestigious gathering brought together state heads, ministers, global investors, and representatives of leading financial institutions and corporations, creating an ideal atmosphere for informal yet impactful dialogue on future cooperation.

During the evening, Dr. Saluja actively engaged with several eminent participants, discussing potential collaborations and pathways to deepen economic and technological ties. A particularly noteworthy interaction was held with His Excellency Mr. Laziz Kudratov, the Hon'ble Minister of Investments, Industry and Trade of Uzbekistan. Their conversation centered on expanding India-

Uzbekistan cooperation across healthcare, education, and manufacturing, and identifying areas where GTTCI's network could contribute to Uzbekistan's Vision 2030. The dinner provided a unique opportunity for fostering trust, enhancing bilateral relations, and reaffirming GTTCI's commitment to building sustainable partnerships with Uzbekistan and the broader Central Asian region.

GTTCI Signs Strategic MoU with 7Saber to unlock global value for Uzbek Brand

In a strategic move to enhance cross-border branding and value creation, GTTCI signed a landmark Memorandum of Understanding with Urban Hayot LLC, the parent company behind Uzbekistan's premier sportswear brand—7Saber. The MoU was signed by Dr. Rashmi Saluja, Chairperson of GTTCI, and Mr. Makhmud, official representative of Urban Hayot, during TIIF 2025.

This collaboration is aimed at enabling 7Saber to unlock global value by entering new markets with a focus on India—the world’s largest and most diverse consumer market along with gulf countries and Russia. GTTCI will support the brand in its journey through integrated trade facilitation, regulatory alignment, digital transformation, and strategic retail expansion. The Indian launch will be accompanied by brand positioning efforts that tap into the growing sportswear and activewear segments across metro cities and emerging regions.

7Saber, known for its high-performance gear and locally manufactured apparel, will benefit from GTTCI’s

deep networks across retail alliances, diplomatic outreach, and e-commerce platforms. The partnership envisions joint participation in international trade exhibitions, digital marketplace promotion, and collaborations with Indian influencers to boost visibility.

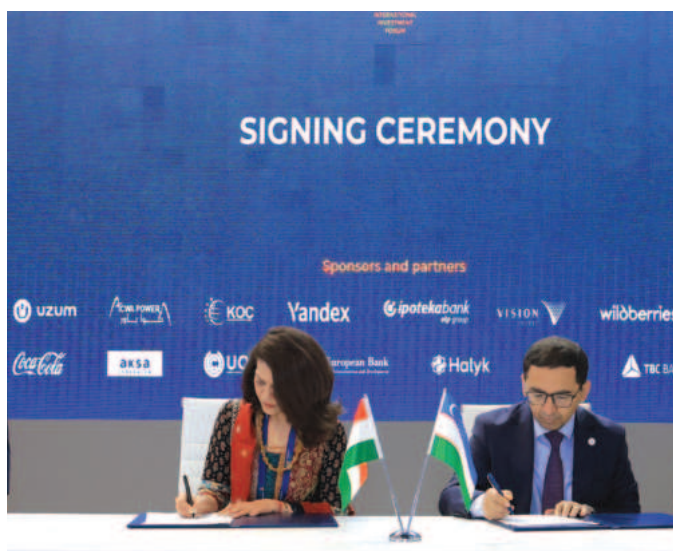

Beyond business, the collaboration also reflects GTTCI’s commitment to supporting promising brands from emerging economies to become global players. With India as the launchpad, the 7Saber-GTTCI partnership is poised to elevate Uzbekistan’s entrepreneurial image on the international stage.

GTTCI signs MoU with Kokand University to Enhance Medical Education and Healthcare Collaboration

The central agenda of this collaboration is the recruitment and enrollment of Indian students into medical programs at Kokand University. To formalize this strategic engagement, a Memorandum of Understanding was signed between Dr.

Rashmi Saluja, Chairperson of GTTCI, and Dr. G.E. Zakhidov, Director of Kokand University's Andijan Branch. GTTCI will serve as the exclusive recruitment partner in India, facilitating admission, documentation, pre-departure orientation, and post-arrival integration support.

In support of this agenda, GTTCI has also pledged to help enhance medical education infrastructure through faculty exchange, curriculum support, and clinical training initiatives. Dr. Saluja emphasized the potential to develop Kokand University into a regional knowledge hub, anchoring a hub-and-spoke model for medical education across CIS countries. The broader vision includes enabling FMGE preparation support, capacity-building programs, and bilateral accreditation processes to ensure students are internationally competitive. The collaboration also envisions the creation of a culturally attuned environment for Indian students—referred to as "Mini India City"—complete with familiar food, language support, and cultural amenities.

This landmark agreement lays the foundation for a new academic corridor between India and Uzbekistan, aimed at making Kokand University a preferred destination for Indian medical aspirants seeking quality education in a globally integrated setting.

GTTCI Explores Investment Opportunities in Karakalpakstan

As part of its outreach to high-potential but underexplored territories in Uzbekistan, GTTCI's delegation led by

Chairperson Dr. Rashmi Saluja and Director Mr. Shubham Gupta visited the autonomous Republic of Karakalpakstan. Welcomed as state guests, the delegates were hosted by Mr. Ermanov Farkhod Urazboevich, Chairman of the Council of the Republic of Karakalpakstan, and Mr. Orinbaev Amanbay Tleubaevich, Chairman of the Jokargy Kenes.

During the visit, the GTTCI delegation toured the Special Economic Zones (SEZs), reviewed industrial layouts, and engaged in dedicated plenary sessions with government and business leaders of the region. Rich in minerals, natural resources, and human capital, Karakalpakstan is emerging as a prime destination for foreign investment, particularly in mining, healthcare, education, and agri-processing.

The regional leadership expressed their commitment to facilitating Indian investments by offering full governmental support, including single-window clearances, land allocation, and investment protection mechanisms. Specific interest was shown in establishing diagnostic centers, specialty hospitals, higher education institutes, and mining-related infrastructure in collaboration with Indian enterprises.

The visit symbolized GTTCI's proactive approach in

connecting Indian stakeholders with the deeper economic landscapes of Central Asia. By identifying opportunities in Karakalpakstan, GTTCI has positioned itself to act as a bridge for Indian entrepreneurs aiming to be early movers in high-growth regions of Uzbekistan.

Advancing Regional Diplomacy Through Trade, Innovation, and Education

TIIF 2025 stood as a testament to Uzbekistan's rising global relevance and economic dynamism. For GTTCI, the forum was not only a platform for forging new collaborations but also a reaffirmation of its mission—to connect Indian expertise with global opportunity. From the vibrant sessions of TIIF to landmark MoUs in healthcare, education, branding, and regional investment, GTTCI demonstrated its capability to convert dialogue into development. Uzbekistan, with its reform-driven agenda, has unlocked a new era of possibilities. GTTCI's role in catalyzing Indo-Uzbek ties reflects a broader trend—where India is emerging as a key contributor to Central Asia's growth narrative. Whether it is creating academic pathways, enabling product globalization, or expanding healthcare frameworks, GTTCI continues to operate at the intersection of diplomacy, business, and societal good.

As both countries chart forward, the ties nurtured at TIIF 2025 will serve as a foundation for enduring economic and strategic cooperation. GTTCI remains committed to deepening this partnership, inviting stakeholders across sectors to join in this journey of transformation, innovation, and shared prosperity.

About College

Keeping this viewpoint in mind, Thakur Har Narayan Singh Group of Colleges was established in 2007 to make higher education accessible to the children of the most backward areas of Prayagraj city where there is a predominance of low and lowest income group and most deprived people and where there was a complete lack of higher education. It is the right of every citizen to get quality and easily accessible higher education. This college strives to inculcate good thinking, development and upliftment in students and society. The grand building, well-equipped laboratories, library and green environment and safe atmosphere here attract everyone. The expertise of the teachers, the hard work of the employees and the social thinking, sacrifice and management of the management committee have fully contributed to the upliftment and progress of the students. In our college, students are pursuing education in BA, B.Com., B.Sc., MA, M.Com., M.Sc., BBA, BCA, B.Ed., D.El.Ed. (B.T.C.) and D.Pharm and from the session 2024-25, new courses Bachelor of Librarian Science (B.Sc.), MBA, MCA are going to be started and very soon B.Sc. Agriculture, B.Sc. Nursing, GNM B.A.L.L.B., L.L.B. And there is a plan to start the Ayurvedic College as soon as the necessary formalities are completed. There is availability of scholarship, sports, toilets and clean drinking water. I wish a bright future for the college family and all the students.

Our Vision

To build a centre of learning where the learner's hidden potential is brought out by a dedicated team of teacher's, enabling him to evolve into a cultural & creative human being; well equipped to play his rightful role in the progress of nation. This college will become the nucleus for the growth of similar light houses of knowledge. In upcoming days, we are going to make our college Autonomous by grading it with National Assessment and Accreditation Council (NAAC).

Message

In today's world the role of college's has undergone a lot of transformation. Along with perusing academic excellence, today's college's also have to motivate and empower the students to be lifelong learners, critical thinkers & productive members of an ever-changing global society. Our college must try to provide the students with an atmosphere for multifaceted development, where students are encouraged to channelize their potential by providing them with a platform to think, express & exhibits their skills with the teacher being a facilitator. Education is the cornerstone of our society and key to unlock individual potential. Within the magazine's pages, we honor the life-changing potential of education and its tremendous influence on our communities and ourselves. Our goal at Th. H.N. Singh Group of College is to create a vibrant, welcoming atmosphere for learning that encourages critical thinking, intellectual curiosity, and lifelong learning. By means of inventive teaching methods, demanding curricula, and hands-on learning experiences, we enable our pupils to prosper in a dynamic global environment. My warm wishes to the teachers, staff, parents & students for the continued success of all their future endeavours.

IREF partners with GTTCI for Global Outreach of BIRC 2025

20th May 2025

IREF ने भारत अंतर्राष्ट्रीय चावल सम्मेलन 2025 के वैश्विक आउटरीच के लिए GTTCI के साथ की साझेदारी

नई दिल्ली (सिंघीआवाज़ न्यूज़) : भारत-भारतीय चावल निर्यातक महासंघ (IREF) ने वैश्व व्यापार एवं औद्योगिकी परिषद भारत (GTTCI) के साथ रणनीतिक साझेदारी की घोषणा की है, तथा उन्हें आगामी भारत अंतर्राष्ट्रीय चावल सम्मेलन (BIRC) 2025 के लिए वैश्व आउटरीच भागीदार नियुक्त किया है। भारतीय चावल निर्यातक महासंघ (IREF) और कृषि एवं प्रसंस्कृत खाद्य उत्पाद निर्यात विकास प्राधिकरण (एपीएडीए) द्वारा संयुक्त रूप से आयोजित हो विश्वीय वैश्विक कार्यक्रम सितंबर 2025 में आयोजित किया जाएगा। इस साझेदारी का उद्देश्य वैश्विक प्रचार प्रसारण को बढ़ाना तथा प्रमुख चावल आयातक देशों से अंतर्राष्ट्रीय खरीदारी और निर्यातकों को आकर्षित करना है। GTTCI विश्व अंतर्राष्ट्रीय भागीदारी सुनिश्चित करने के लिए आउटरीच और सहभागिता पहलों का नेतृत्व करेगा, जिससे BIRC 2025 वैश्विक चावल उद्योग के लिए एक ऐतिहासिक आयोजन बन जाएगा। इस सहयोग की औपचारिक घोषणा एक औपचारिक आदान-प्रदान के दौरान की गई, जहाँ IREF के राष्ट्रीय अध्यक्ष डॉ. प्रेम गर्ग ने साझेदारी की मान्यता में GTTCI के संस्थापक अध्यक्ष डॉ. गौरव गुप्ता को एक स्मृति चिह्न भेंट किया।

IREF के राष्ट्रीय अध्यक्ष डॉ. प्रेम गर्ग ने कहा, "यह सहयोग वैश्विक चावल व्यापार में भारत की उपस्थिति को बढ़ाने के लिए GTTCI के मिशन में एक मील का पत्थर है।" GTTCI के गतिशील वैश्विक नेटवर्क और सिस्टम ट्रेड रिपोर्ट के साथ, हम एक विश्व स्तरीय कार्यक्रम की मेजबानी करने के लिए तैयार हैं जो पूरे चावल मूल्य श्रृंखला को एक साथ लाएगा।

डॉ. गौरव गुप्ता ने साझेदारी के बारे में उत्साह व्यक्त करते हुए कहा, "BIRC 2025 के लिए 'ग्लोबल आउटरीच पार्टनर' के रूप में सेवा करने के लिए GTTCI को सम्मानित किया गया है। हम अंतर्राष्ट्रीय भागीदारी को बढ़ावा देने और सीमाओं के पर प्रभावशाली कनेक्शन बनाने के लिए तैयार हैं।" भारत अंतर्राष्ट्रीय चावल सम्मेलन 2025 का उद्देश्य निर्यातकों, आयातकों, मिल मिलकों, शोधकर्ताओं, नीति निर्माताओं, कृषि-तकनीकी नवप्रवर्तकों और रसर प्रदाताओं को एक एकल मंच पर लाना है ताकि वैश्विक अवसरों का पता लगाया जा सके, नवाचारों पर चर्चा की जा सके और स्थानीय सहयोग का निर्माण किया जा सके। कार्यक्रम के एजेंडा, स्थल और फंडीकरण के बारे में आगे की जानकारी आने वाले हफ्तों में जारी की जाएगी।

Indian Rice Exporters Federation (IREF) Partners with GTTCI for Global Outreach of Bharat International Rice Conference 2025

New Delhi, Focus News: Indian Rice Exporters Federation (IREF) has announced a strategic partnership with the Global Trade & Technology Council India (GTTCI), appointing them as the Global Outreach Partner for the upcoming Bharat International Rice Conference (BIRC) 2025. The two-day global event, jointly organized by Indian Rice Exporters Federation (IREF) and the Agricultural and Processed Food Products Export Development Authority (APEDA), is scheduled to be held in September 2025. This partnership is aimed at amplifying global promotion efforts and attracting international buyers and stakeholders from key rice-importing countries. GTTCI will lead outreach and engagement initiatives to ensure diverse international participation, making BIRC 2025 a landmark event for the global rice industry.

The collaboration was formally announced during a ceremonial exchange, where Dr. Prem Garg, National President, IREF, presented a memento to Dr. Gaurav Gupta, Founder President, GTTCI, in recognition of the partnership. "This collaboration is a milestone in IREF's mission to elevate India's presence in the global rice trade," said Dr. Prem Garg, National president, IREF. "With GTTCI's dynamic global network and proven track record, we are poised to host a world-class event that will bring the entire rice value chain together." Dr. Gaurav Gupta expressed enthusiasm about the partnership, stating, "GTTCI is honored to serve as the Global Outreach Partner for BIRC 2025. We look forward to fostering international participation and driving impactful connections across borders." Bharat International Rice Conference 2025 aims to bring together exporters, importers, millers, researchers, policymakers, agri-tech innovators, and logistics providers on one unified platform to explore global opportunities, discuss innovations, and build lasting collaborations. Further details on the event agenda, venue, and registration will be released in the coming weeks.

नई दिल्ली (सिंघीआवाज़ न्यूज़) : भारत-भारतीय चावल निर्यातक महासंघ (IREF) ने वैश्व व्यापार एवं औद्योगिकी परिषद भारत (GTTCI) के साथ रणनीतिक साझेदारी की घोषणा की है, तथा उन्हें आगामी भारत अंतर्राष्ट्रीय चावल सम्मेलन (BIRC) 2025 के लिए वैश्व आउटरीच भागीदार नियुक्त किया है। भारतीय चावल निर्यातक महासंघ (IREF) और कृषि एवं प्रसंस्कृत खाद्य उत्पाद निर्यात विकास प्राधिकरण (एपीएडीए) द्वारा संयुक्त रूप से आयोजित हो विश्वीय वैश्विक कार्यक्रम सितंबर 2025 में आयोजित किया जाएगा। इस साझेदारी का उद्देश्य वैश्विक प्रचार प्रसारण को बढ़ाना तथा प्रमुख चावल आयातक देशों से अंतर्राष्ट्रीय खरीदारी और निर्यातकों को आकर्षित करना है। GTTCI विश्व अंतर्राष्ट्रीय भागीदारी सुनिश्चित करने के लिए आउटरीच और सहभागिता पहलों का नेतृत्व करेगा, जिससे BIRC 2025 वैश्विक चावल उद्योग के लिए एक ऐतिहासिक आयोजन बन जाएगा। इस सहयोग की औपचारिक घोषणा एक औपचारिक आदान-प्रदान के दौरान की गई, जहाँ IREF के राष्ट्रीय अध्यक्ष डॉ. प्रेम गर्ग ने साझेदारी की मान्यता में GTTCI के संस्थापक अध्यक्ष डॉ. गौरव गुप्ता को एक स्मृति चिह्न भेंट किया।

IREF के राष्ट्रीय अध्यक्ष डॉ. प्रेम गर्ग ने कहा, "यह सहयोग वैश्विक चावल व्यापार में भारत की उपस्थिति को बढ़ाने के लिए GTTCI के मिशन में एक मील का पत्थर है।" GTTCI के गतिशील वैश्विक नेटवर्क और सिस्टम ट्रेड रिपोर्ट के साथ, हम एक विश्व स्तरीय कार्यक्रम की मेजबानी करने के लिए तैयार हैं जो पूरे चावल मूल्य श्रृंखला को एक साथ लाएगा।

IREF और GTTCI की रणनीतिक साझेदारी घोषित

नई दिल्ली (सिंघीआवाज़ न्यूज़) : भारत-भारतीय चावल निर्यातक महासंघ (IREF) ने वैश्व व्यापार एवं औद्योगिकी परिषद भारत (GTTCI) के साथ रणनीतिक साझेदारी की घोषणा की है, तथा उन्हें आगामी भारत अंतर्राष्ट्रीय चावल सम्मेलन (BIRC) 2025 के लिए वैश्व आउटरीच भागीदार नियुक्त किया है। भारतीय चावल निर्यातक महासंघ (IREF) और कृषि एवं प्रसंस्कृत खाद्य उत्पाद निर्यात विकास प्राधिकरण (एपीएडीए) द्वारा संयुक्त रूप से आयोजित हो विश्वीय वैश्विक कार्यक्रम सितंबर 2025 में आयोजित किया जाएगा। इस साझेदारी का उद्देश्य वैश्विक प्रचार प्रसारण को बढ़ाना तथा प्रमुख चावल आयातक देशों से अंतर्राष्ट्रीय खरीदारी और निर्यातकों को आकर्षित करना है। GTTCI विश्व अंतर्राष्ट्रीय भागीदारी सुनिश्चित करने के लिए आउटरीच और सहभागिता पहलों का नेतृत्व करेगा, जिससे BIRC 2025 वैश्विक चावल उद्योग के लिए एक ऐतिहासिक आयोजन बन जाएगा। इस सहयोग की औपचारिक घोषणा एक औपचारिक आदान-प्रदान के दौरान की गई, जहाँ IREF के राष्ट्रीय अध्यक्ष डॉ. प्रेम गर्ग ने साझेदारी की मान्यता में GTTCI के संस्थापक अध्यक्ष डॉ. गौरव गुप्ता को एक स्मृति चिह्न भेंट किया।

[illegible]

शाम का समापन भी किया, जिसमें अंतर्दृष्टि के समुद्र आनन्द-प्रदान और शांति को बहाया देने में देशों के बीच एकता को स्वीकार किया गया। कई देशों के राजनिर्यातों और अधिकारियों ने अपने-अपने क्षेत्रों में संयुक्त राफ्ट शांति सैनिकों को परिवर्तनकारी भूमिका पर अपने दृष्टिकोण पेश किए। उन्होंने बताया कि कैसे शांति सैनिकों ने प्रशासकिक ढांचे को स्थिर करने, राजनीतिक संतुलन बहाल करने और संघर्ष से उबरने वाले समुदायों के परिचर्या में मदद की है।

A unifying thread across all addresses was the shared understanding that peacekeeping must evolve rapidly in the face of emerging cybersecurity threats, hybrid warfare, and new forms of aggression against national sovereignty. Speakers called for the integration of advanced technologies, stronger cyber defense strategies, and better-trained multinational forces to deal with the changing dynamics of modern conflict.

Paraguay Positions Itself as India's Gateway to South America's MERCOSUR Market

Paraguayan President's Historic Visit to India Opens New Avenues for Bilateral Cooperation

A Historic Welcome in New Delhi

In a momentous diplomatic occasion, Paraguayan President Santiago Peña Palacios embarked on his first state visit to India from June 4–6, 2025, marking a new chapter in bilateral relations between the two democratic nations. He was received with ceremonial honors at Rashtrapati Bhavan by President Droupadi Murmu and Prime Minister Narendra Modi, reflecting the significance India places on its engagement with Latin America. President Peña's visit is the first high-level visit from Paraguay to India in over a decade, indicating the growing strategic interest in expanding cooperation across continents.

This historic welcome also included a guard of honor, cultural exchanges, and bilateral meetings aimed at deepening political, economic, and people-to-people ties.

Strengthening Diplomatic Foundations

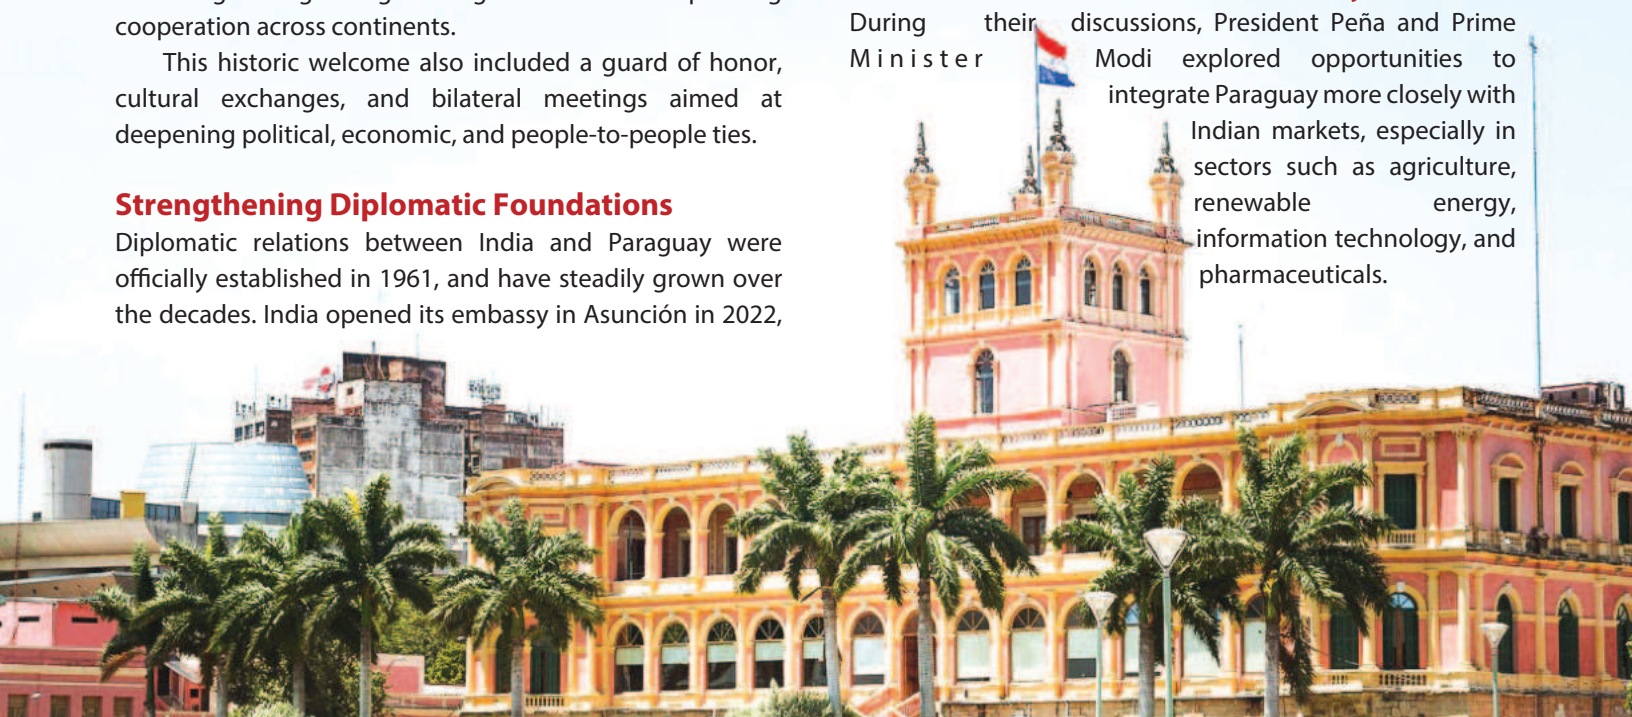

Diplomatic relations between India and Paraguay were officially established in 1961, and have steadily grown over the decades. India opened its embassy in Asunción in 2022,

a reciprocal gesture to Paraguay's longstanding embassy in New Delhi. Paraguay also maintains honorary consulates in major Indian cities like Mumbai and Chennai.

This visit builds upon that foundation by reaffirming mutual respect and commitment to South-South cooperation. President Peña described the India visit as a "strategic outreach to one of the world's largest democracies," aiming to transform traditional diplomacy into tangible collaborations that uplift both economies.

Trade, Investment, and Connectivity

During their discussions, President Peña and Prime Minister Modi explored opportunities to integrate Paraguay more closely with Indian markets, especially in sectors such as agriculture, renewable energy, information technology, and pharmaceuticals.

Paraguay highlighted its ambition to become a gateway for India to the 400-million strong MERCOSUR market—a regional trade bloc in South America that includes Brazil, Argentina, and Uruguay. In return, India emphasized its desire to increase its economic footprint in Latin America by investing in critical infrastructure, logistics, and value-added manufacturing within Paraguay.

Both leaders acknowledged the untapped potential of bilateral trade, which has hovered around \$300 million in recent years. The goal is to double this figure over the next three years through new trade facilitation measures, joint ventures, and preferential agreements.

Joint Statements & Cooperation Pillars

A joint statement issued after the bilateral talks laid out a multi-pronged cooperation roadmap focused on:

- Expanding commerce and investment frameworks
- Enhancing agricultural productivity and food processing
- Strengthening renewable energy projects including hydroelectric collaborations
- Promoting academic partnerships and technological research

The two nations agreed to explore bilateral preferential trade arrangements and collaborate on standards harmonization to reduce non-tariff barriers.

Goals for Collaborative Growth

India reiterated its interest in expanding defense engagement with Paraguay, including training, cybersecurity, and peacekeeping operations. Paraguay, in turn, welcomed Indian participation in energy infrastructure, fintech, agritech, and telecom—leveraging its stable macroeconomic climate and investor-friendly policies.

Both nations committed to supporting multilateralism and reforming global institutions such as the UN and WTO to better represent developing countries. This shared vision was echoed during their joint press interaction, where both leaders underscored the need for inclusive globalization.

People-to-People and Cultural Outreach

Beyond economics and strategy, the visit also focused on enhancing cultural diplomacy. Paraguay expressed interest in hosting Indian cultural festivals, yoga day celebrations, and promoting Sanskrit studies in its universities. In turn, India invited more Paraguayan students and scholars to its institutions under the ICCR and ITEC programs.

Discussions also touched upon easing visa regimes, enhancing consular cooperation, and facilitating direct flights and air connectivity in the future.

Why This Visit Matters

President Peña's visit comes at a crucial time when India is expanding its global diplomatic footprint, particularly in Latin America and the Caribbean. The engagement with Paraguay is a testament to India's Act Global policy, complementing its traditional Eastward focus with a new push toward the Global South. For Paraguay, this visit not only strengthens its strategic alignment with India but also elevates its visibility on the global stage. It aims to leverage India's expertise in technology, innovation, and inclusive development to modernize its own economy.

Terrorism, Trade, and Tech: India–Central Asia Dialogue Charts Bold Path Forward

India and Central Asia Forge Stronger Ties at 4th Dialogue in New Delhi

The 4th India–Central Asia Dialogue, held in New Delhi on June 6, 2025, marked a pivotal advancement in India’s growing strategic engagement with the Central Asian region. Foreign Ministers from India and five Central Asian republics — Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan — convened for comprehensive discussions that emphasized mutual cooperation on regional security, economic connectivity, energy transition, and cultural exchanges.

This high-level forum, a key pillar of India’s “Connect Central Asia” policy launched in 2012, reaffirmed New Delhi’s

intent to broaden diplomatic, economic, and institutional ties with the strategically vital region.

Renewed Commitment to Regional Security

Security was at the forefront of the dialogue, with External Affairs Minister Dr. S. Jaishankar opening the session by condemning the April 22 terror attack in Pahalgam, India, which claimed 26 civilian lives. The foreign ministers collectively denounced terrorism in all its forms and stressed the need to combat radical ideologies and violent extremism.

The dialogue emphasized the urgency of collective responses to terrorism, with particular focus on improving intelligence-sharing, strengthening anti-terror legal

mechanisms, and enhancing coordination under the framework of the United Nations and Financial Action Task Force (FATF). Central Asian nations expressed solidarity with India's zero-tolerance stance on terrorism and agreed to deepen cooperation on counter-terrorism capacity building.

Deepening Economic and Trade Connectivity

Another key focus was enhancing trade, transit, and economic linkages. All sides highlighted the strategic relevance of the International North-South Transport Corridor (INSTC), a multi-modal network connecting India to Central Asia via Iran and the Caspian Sea. The Chabahar Port in Iran was specifically recognized as a vital gateway for boosting Indo-Central Asia trade.

Efforts are underway to increase the use of national currencies in trade and expand digital financial platforms to ease business transactions. Sectors such as agri-business, pharmaceuticals, textiles, processed foods, information technology, and tourism were identified as areas of high potential for two-way investments.

The ministers also deliberated on the creation of trade exhibitions, B2B forums, and digital marketplaces to enhance commercial engagement, especially among Micro, Small and Medium Enterprises (MSMEs).

Advancing Cooperation in Energy and Technology

Energy collaboration emerged as another top agenda item. India expressed strong interest in importing green energy from Central Asia, known for its vast hydropower resources and emerging renewable energy capacities. Agreements were proposed for technical training and joint ventures in solar, wind, and bio-energy sectors.

In a landmark move, India and the Central Asian countries agreed to establish a joint task force on critical minerals and rare earth elements. This cooperation is expected to facilitate shared exploration, knowledge transfer, and strategic stockpiling of key minerals necessary for emerging technologies, including electric vehicles, semiconductors, and renewable energy systems.

Cybersecurity and digital public infrastructure were also discussed, with proposals for collaborative frameworks to ensure secure data ecosystems, fintech innovation, and resilient digital supply chains.

Strengthening Cultural and Academic Ties

Building upon centuries-old civilizational ties, both sides reiterated the importance of cultural diplomacy. With a shared history rooted in Silk Route exchanges, India

and Central Asia committed to deepening connections through cultural festivals, heritage conservation, literature translation projects, and media exchanges.

India reiterated its offer of scholarships under the ITEC and ICCR programs, proposing to increase student exchanges, academic partnerships, and faculty development programs across universities in both regions. The Central Asian countries welcomed India's initiative to open new cultural centers and support consular ease for academic mobility.

Toward a Comprehensive Strategic Partnership

The 4th Dialogue took place amid a complex geopolitical landscape shaped by shifting alliances, energy realignments, and regional power dynamics. All six countries agreed on the need for a multilateral rules-based order that prioritizes peace, regional integrity, and sustainable development.

India's bid for permanent membership of the UN Security Council received continued backing from the Central Asian republics. There was also a call to develop institutional mechanisms for defense dialogue, cyber cooperation, and regional crisis response.

Modi's Mediterranean Mission: Cyprus Emerges as India's Strategic EU Partner

PM Modi in Cyprus: A Historic Step in Strengthening Mediterranean Ties

In a powerful demonstration of growing diplomatic engagement, Prime Minister Narendra Modi embarked on a landmark visit to Cyprus—his first to the island nation and the first by any Indian Prime Minister in over two decades. The visit, which marks a significant shift in India's Mediterranean outreach, blends strategic vision, economic optimism, and cultural diplomacy.

A Warm Welcome Reflecting Historic Ties

Landing in Larnaca on June 15, Modi was received with full state honours, including a ceremonial guard of honour at the Presidential Palace in Nicosia. Cypriot President Nikos Christodoulides welcomed him personally, calling the visit a "moment of pride" that reaffirmed the deep historical bonds between the two democracies.

Though diplomatic relations between India and Cyprus date back to 1962, the Prime Minister's presence underlined a renewed commitment to take this relationship beyond symbolism—towards concrete cooperation in trade, technology, and global affairs.

Cyprus Honours Modi with Its Highest Civilian Award

The most headline-grabbing moment of the visit came when PM Modi was conferred the Grand Cross of the Order of

Makarios III, Cyprus's highest civilian honour. Modi, in a moving address, dedicated the recognition to the 1.4 billion people of India, describing it as a "symbol of the mutual respect and friendship" both nations cherish.

The award, named after Cyprus's founding President and archbishop, reflects the importance Nicosia places on India as a democratic partner in a region often dominated by competing powers.

A New Chapter in Economic Cooperation

During a vibrant business roundtable in Limassol, PM Modi urged Cypriot businesses to seize opportunities in India's rapidly transforming economic landscape. He emphasized India's leap towards becoming the third-largest global economy, driven by major reforms in tax regulation, digital infrastructure, and start-up innovation.

"Start-ups are not just delivering dreams—they're delivering results," Modi said, highlighting India's booming entrepreneurial spirit. Discussions ranged across maritime logistics, clean energy, fintech, and artificial intelligence—sectors where both countries could collaborate with mutual benefit.

An emerging trilateral mechanism involving Greece, Cyprus, and India also surfaced, suggesting broader regional ambitions.

Strategic Convergence and Global Connectivity

Cyprus's strategic position in the eastern Mediterranean opens doors for broader connectivity. Both nations signaled interest in developing the India–Middle East–Europe Economic Corridor (IMEC), a visionary project to improve sea-rail infrastructure across continents.

Modi expressed hope that Cyprus, an EU member poised to take on the EU Council presidency in 2026, could serve as a crucial node in this initiative. Discussions also touched on maritime security and shared concerns over global terrorism—areas where India and Cyprus find increasing alignment.

Symbolic Gestures and Cultural Connection

Beyond bilateral talks and business engagements, Modi took time to lay a wreath at the memorial of Archbishop Makarios III, paying tribute to Cyprus's national legacy. He also addressed the local Indian community, celebrating their contributions and reassuring continued support from the Indian government.

The diaspora response was emotional and festive, showcasing the enduring cultural ties that bolster diplomatic ones.

The Broader Context: A European Pivot

Modi's Cyprus visit is more than a bilateral stop—it is part of a carefully choreographed tour that also includes Canada and Croatia. The timing is significant. As India positions itself as a global power with strategic autonomy, partnerships with smaller yet geopolitically important countries like Cyprus offer new pathways for influence within the European Union and the Mediterranean.

Moreover, the visit sends a subtle but clear signal to regional actors like Turkey, reaffirming India's diplomatic independence and its willingness to engage partners on both political and economic fronts.

Looking Ahead

As the visit concluded, both governments expressed optimism about scaling their cooperation. Whether it's in technology, infrastructure, or diplomacy, the foundation laid in Nicosia seems poised for long-term impact.

India's renewed outreach to Cyprus is not just about mending a diplomatic gap after 23 years—it's about crafting a forward-looking partnership rooted in shared values, economic

synergy, and strategic convergence.

In the heart of the Mediterranean, a new chapter in India's global story has quietly begun.

The Role of (AI) in Commercial Diplomacy: A Case Study of India

Introduction

Artificial Intelligence (AI) is no longer just a futuristic concept; it's here, shaping industries, economies, and even diplomacy. In the realm of commercial diplomacy, AI is proving to be a game-changer, helping nations negotiate trade deals, analyze economic trends, and strengthen international partnerships. India, a rising global economic powerhouse, has been actively integrating AI into its diplomatic strategies to enhance trade relations and economic cooperation.

AI's Growing Influence in Commercial Diplomacy

Commercial diplomacy is all about advancing a country's economic interests on the global stage.

Traditionally, this involved diplomats, trade experts, and policymakers working together to negotiate agreements, resolve disputes, and promote investments. But now, AI stepping in to make these processes more efficient and data-driven.

Here's how AI is transforming commercial diplomacy:

- **Data-Driven Decision Making:** AI-powered analytics help diplomats assess trade patterns, predict market fluctuations, and optimize negotiations (Amaresh, 2022).
- **Automated Trade Compliance:** AI ensures adherence to international trade regulations, reducing bureaucratic delays (Raja, 2023).
- **Enhanced Policy Formulation:** AI tools assist policymakers in evaluating trade agreements and investment opportunities (MyBib, 2025).
- **Digital Streamlines Trade Facilitation:** AI streamlines customs procedures, reducing trade barriers and improving efficiency

(Amaresh, 2022).

India's AI-Driven Approach to Commercial Diplomacy

India has recognized AI's potential in Diplomacy and trade, and several initiatives highlight its commitment to leveraging technology:

- **NITI Aayog's AI strategy:** India's policy think tank has emphasized AI's role in economic growth and international trade (Amaresh, 2022).
- **New and Emerging Strategic Technologies (NEST) Division:** The Ministry of External Affairs (MEA) established NEST to integrate AI into foreign policy (Amaresh, 2022).
- **AI in Trade Negotiations:** AI tools assist Indian diplomats in analyzing trade agreements and optimizing negotiations (Raja, 2023).

Case Study: AI in India's Trade Relations

India's AI-driven approach has been instrumental in strengthening trade relations with key partners:

- **India-U.S. Trade Relations:** AI-powered analytics have helped India negotiate favorable trade terms with the U.S. (Amaresh, 2022).
- **India-China Economic Strategy:** AI aids India in assessing trade risks and opportunities in its economic engagements with China (Raja, 2023).
- **Multilateral Trade Agreements:** AI enhances India's participation in organizations like BRICS and WTO (MyBib, 2025).

Challenges & Future Prospects

Despite its advantages, AI in commercial diplomacy faces challenges such as data privacy concerns, ethical considerations, and geopolitical tensions. However, India's proactive approach in AI governance and international collaborations positions it as a leader in AI-driven diplomacy (Raja, 2023).

Conclusion

AI is transforming commercial diplomacy by enabling data-driven decision-making. Optimizing trade negotiations, and enhancing global economic relations. India's strategic use

of AI in diplomacy underscores its commitment to leveraging technology for economic growth and international influence.

Hanoi liberalizes investment rules to attract long-term capital.

28. **Turkey Announces \$60 Billion Infrastructure Bonds Program**

Bonds will finance nationwide transportation and digital infrastructure overhaul.

29. **Canada Greenlights First AI-Powered Robo-Advisory Bank License**

A landmark moment in fintech regulation and consumer investment access.

30. **African Continental Free Trade Area (AfCFTA) Launches Digital Payments Platform**

A single platform to streamline cross-border trade and reduce transaction costs.

GLOBAL INSIGHTS: *Tech & Innovation*

- 1. Apple Unveils AI-Driven VisionOS 2.0 for Spatial Computing**
Apple introduces major updates to its Vision Pro platform, focusing on seamless mixed reality integration.
- 2. Google Launches Gemini 2.5: Multimodal AI Assistant Across Devices**
The new Gemini AI blends voice, vision, and text for personalized user experiences on Android and Pixel devices.
- 3. Microsoft Debuts Real-Time AI Coding Assistant in GitHub Copilot**
GitHub Copilot upgrades to offer real-time code debugging and test generation with AI.
- 4. Samsung Showcases Transparent Micro-LED Display Prototype**
A breakthrough in display tech with ultra-clear, bezel-less micro-LED screens unveiled at a tech expo.
- 5. OpenAI Introduces Voice-Interactive GPT-4.5 for Business Use**
Businesses gain access to GPT-4.5 with natural voice interactivity and custom tool integrations.
- 6. Nvidia Launches Blackwell GPUs, Supercharging AI Model Training**
Nvidia's next-gen chips offer record-breaking performance for AI, gaming, and data centers.
- 7. Tesla Reveals Full Self-Driving v13 with Human-Like Navigation**
FSD Version 13 now handles complex urban traffic with improved neural net predictions.
- 8. Amazon Debuts AI-Powered Warehouses With Robotic Coordination**
New automation systems reduce human involvement in order processing by 40%.
- 9. Meta Unveils Quest 4 With Eye-Tracking and Mixed Reality Gaming**
The Quest 4 headset offers immersive gameplay with improved passthrough and gesture recognition.
- 10. China Launches First Quantum-Secured Satellite Network**
A major step in unhackable communication infrastructure using quantum key distribution.
- 11. Intel Ships First 1.8nm Process Chips for Consumer Devices**
Marking a leap in energy efficiency and performance in mobile and desktop computing.
- 12. Sony Introduces AI Co-Composer for Music and Film Scoring**
Artists can now collaborate with Sony's AI to compose background scores and soundtracks.
- 13. SpaceX Tests Starlink Direct-to-Device With Successful Text Messaging Demo**
Starlink now allows direct smartphone messaging without ground-based towers.
- 14. IBM Launches Enterprise-Grade AI Ethics Toolkit for Developers**
Tools to ensure ethical training, auditing, and deployment of large language models.
- 15. Tata Group Develops India's First Indigenous AI Chip Prototype**
A milestone in India's semiconductor self-reliance and AI infrastructure.
- 16. Japan's ANA Introduces AI-Powered Robot Porters at Airports**
Travelers can now be guided to gates by intelligent robotic assistants in major terminals.
- 17. Boston Dynamics' Atlas Robot Learns Complex Tasks via Self-Supervised AI**

The humanoid robot now assembles objects autonomously using vision-language models.

- 18. Google Maps Integrates Immersive 3D Real-Time Navigation in Major Cities**
Users can now virtually "walk through" streets in real time with AI rendering.
- 19. Europe Approves AI Act: World's First Comprehensive AI Regulation**
The EU enforces new rules for transparency, bias prevention, and AI accountability.
- 20. Adobe Firefly 2 Offers Live Image-to-Video Generation in Premiere Pro**
Adobe revolutionizes video editing by generating scenes from prompts in real time.
- 21. Saudi Arabia Launches NEOM Tech City's Digital Twin Simulation**
A full-scale virtual replica of NEOM enables testing urban innovations before physical implementation.
- 22. Huawei Introduces HarmonyOS Next for China's AI-First Ecosystem**
HarmonyOS moves beyond Android, focusing on domestic chipsets and AI-native apps.
- 23. MIT Develops Self-Healing Solar Panels for Harsh Environments**
Panels can now repair microscopic cracks, boosting long-term sustainability.
- 24. Netflix Implements AI Scriptwriting Tools for Pre-Production Analysis**
Studio writers gain insights into audience trends and character arcs with machine assistance.
- 25. Byju's Launches Global AI Tutor for Personalized Learning Paths**
An advanced education platform adapts in real-time to student behavior and progress.
- 26. Dubai Airport Tests Biometric-Only Check-In and Boarding Process**
Passengers can travel without passports or boarding passes using facial recognition.
- 27. Researchers Grow Functional Human Liver Tissue Using 3D Bioprinting**
A major advancement in regenerative medicine and organ transplantation.
- 28. TikTok Introduces Generative AI Avatars for Content Creation**
Creators can now animate lifelike avatars using voice, expressions, and movement.
- 29. Dell Launches Sustainable Laptops Made Entirely From Recycled Materials**
A step forward in green technology with zero new plastic components.
- 30. UN and UNESCO Announce Global AI for Education Framework**
A worldwide guideline on deploying AI responsibly in schools and universities.
